

ACL Job Reference #: HR10-E-CIV-0002

Position: Intermediate/Senior Civil/Forest Engineer

Location: Prince George, BC

Status: Permanent Full Time

How will you make your mark? Allnorth helps engineer and build the infrastructure that generations of Canadians & businesses rely on today and tomorrow. We are a multi-disciplinary firm active in transportation, marine, power, oil & gas, chemical, process, mining, materials handling, and civic projects. We design and develop the processing plants that power our nation's economy and the roadways and structures that safely transport people and goods across Canada - always with an eye on the environment.

Over the past 30 years, we've built an industry reputation for strong partnerships and quality projects. Our people have provided the skills, dedication and ingenuity behind this success. As our business moves towards a vision of servicing clients globally, we're looking to grow our talented team of Structural/Civil, Mechanical, Marine & Environmental Engineers, Designers, Materials Technicians, and Surveyors.

Summary:

We are aggressively pursuing our vision to be a high-profile full-service consulting engineering firm providing multidisciplinary services to an array of sectors globally. To facilitate this, we are seeking to engage a highly capable **Intermediate/Senior Civil/Forestry Engineer**, for our Prince George Office.

The successful candidate will be responsible for resource road & bridge engineering design, bridge and road inspections, construction supervision, contract management, quality control/assurance, quality management, and surveying on resource sector transportation projects. The candidate will also liaise with clients, contractors and other consultants.

Using your considerable organizational, communication and people skills, you will lead and work with multi-discipline teams to ensure projects are completed within allotted schedules and budgets, and to high quality standards. Mentorship of new and junior employees is also a key part of this role and our organization.

Education Required:

- Bachelors Degree in Civil or Forestry Engineering

Experience Required:

- 5 or more years of relevant experience in heavy civil design in the resource or transportation sectors, preferably with significant project and construction management experience
- Excellent communication skills (interpersonal and written) and proven ability to collaborate with team members in a multi-disciplined environment
- Technical competence and strong attention to detail
- Must be registered as a Professional Engineer (PEng.) or ABCFP (or eligible for registration) as a professional forester (RPF) and/or forest technologist (RFT) in the province of British Columbia
- Willingness to travel and work in the outdoors.

Interested candidates can apply at www.allnorth.com career opportunities.

We thank all applicants for their interest. Please note that only those applicants selected for an interview will be contacted. Please, no phone calls about this job. Previous applicants need not apply.
