

Dunkley Lumber Ltd., a progressive forest company operating in the Prince George area, manufactures high quality lumber products for our customers within North America and around the world. We draw our wood supply, in part, from our Tree Farm Licence and other Prince George Timber Supply operating areas. Our company is committed to ensuring that our forest resources are managed to the highest possible standard.

We are currently inviting applications for the following position in our Woodlands Department.

SILVICULTURE FORESTER

As Silviculture Forester you will be working with the Woodlands team in the administration and supervision of Dunkley's silviculture and forest planning program. Your responsibilities will include:

- Planning and directing silviculture related field activities, including supervising planting and site prep,
- Preparing silviculture Site Plans(SP) and amendments,
- Administering Forest Investment Account and other Government funded projects,
- Reporting activities in Genus and results,
- Completing post harvest prescriptions,
- Managing stand tending projects, and
- Conducting silviculture surveys.

The successful applicants will be able to demonstrate:

- Registration as an RPF with the ABCFP,
- A minimum of 3 years experience in forestry fieldwork, preferably related to silviculture,
- Strong computer skills, including familiarity with Genus software,
- Knowledge of current BC forest legislation, regulations, policies, and guidelines,
- Possession of a valid Class 5 Driving Licence and safe driving record,
- Good problem solving, decision making and organizational abilities,
- Good verbal communication and technical writing skills, and
- The ability to work independently and in a team.

Applications will be accepted up to 5:00 p.m., March 19, 2010. Please email a cover letter and resume to Doug Perdue at dperdue@dunkleylumber.com with Silviculture Forester in the subject line.

We thank you for your interest, however, only candidates invited to interview will be contacted.
