

Solid foundation – building momentum

Innovative leadership and a commitment to the highest standards of environmental, safety and operational excellence have secured Canfor its place as a national and global leader in the forest products industry.

Forestry Supervisor, Silviculture

Contribute your ideas for innovations & enhancements to our Forest Management Group—Fort St. John

Planning and implementing silviculture programs under the guidance of the Silviculture Coordinator, you will implement and manage site preparation, reforestation, seed collection and post-harvest site assessment, among others. Budgeting and ensuring excellent safety, quality, cost and delivery results round out the role.

Along with a relevant degree/diploma, you have at least 2 years' related forestry experience and are registered as an RFT, FIT or RPF with the Association of BC Forestry Professionals. You also bring strong knowledge of BC forestry legislation and policies, communication skills and computer literacy.

Please forward your résumé by September 17, 2010 to:
